Use Zone: 15' 6" diameter circle

Whirl your way through a fun afternoon with the Spinning Tea Cup. Constructed from fiberglass and PE Board, the Spinning Tea Cup provides a safe and unique activity for smaller children who are eager to experience lots of sensory stimulation. Inside the round tub, kids will find a comfortable bench seat to sit and spin, while the cup's tip-proof base is sturdy enough to keep children snug inside while in motion. Pre-drilled holes eliminate rainwater, keeping the cup ready to ride, even after inclement weather. The design of the Spinning Tea Cup encourages children to hone their gross motor skills and coordination skills. And the accessory's rubber handle is made from PE board in a fun, scalloped shape, to provide comfort and stabilization for kids as they spin. The Spinning Tea Cup comes in a variety of brilliant hues: Red, Blue, Yellow, or Lime Green that can be paint splattered. Please request your color preference when ordering.
