The Small Tree House with Slide is a great solution for when you want to provide a fun play spot but only have a limited amount of space available. Designed for preschool-aged children, this play unit allows imaginations to soar as they climb into the tree house by the Elephant Stairs or Transfer Station. A Club House Roof adds to the outdoor look of the unit. An Elephant Panel is featured on the deck to provide another learning opportunity about animals. The Rain Wheel that is post mounted at ground level can even transport kids to the rainforest. A Wave Slide provides a gentle exit from the tree house and sends kids back to the ground in style. The Small Tree House with Slide is sure to be a fast favorite for any school yard, church or commercial play area.
