Use Zone: 14' 2" x 18'

The Choo Choo Express is an exciting playground event that younger children will be attracted to. It will allow them to board the train and take it down the tracks to any destination they can think of. The high quality construction is powder coat painted in your choice of available colors. The train features a small bench seat that faces two movable steering wheels, and a 25" diameter plastic tube. The plastic crawl tube is designed to emulate the front of a train, but also allows kids to climb in and go along for the ride. The words "Big Top Train" are along the sides of the crawl tube. Fun wheel panels add to the look of the train. The Choo Choo Express is the front part to the Choo Choo Express Set that includes a metal racecar and a single tunnel. Request your very own Choo Choo Express for your playground by contacting any of our excellent sales representatives.
