

ADA Playground Ramp for Landscape Timbers

MSRP \$1,560.00

SALE \$1,326.00

Highlights:

- Includes two Half Ramps and 9 Stakes

Ensuring accessible public spaces as mandated by the Americans with Disabilities Act (ADA) is a priority, especially in playgrounds and parks where inclusivity is key. Our ADA-compliant ramps are designed to make play areas accessible to everyone, including those using wheelchairs or walkers, effectively turning landscape timbers from barriers into gateways of fun.

Features of This ADA Handicap Ramp

A crucial aspect of playground planning is ensuring that an ADA handicap ramp is installed to provide seamless access. AAA State of Play delivers commercial-grade ramps built to last and to withstand the elements and frequent use, and each ADA ramp is crafted to fit perfectly with landscape timber LT4 or LT6, ensuring a secure and accessible ramp for all playground visitors. Each ramp is 43 inches wide by 120 inches long, and nine 30-inch-long spikes are included with each ramp for proper mounting of the ramp to the ground and timbers. Each purchase also comes with filler caps for a finished appearance where the ramp meets the connecting timbers. [\[Read More\]](#)
