

Artificial Grass Surface

Price \$0.00

COMPLIES With:
ASTM F1487-17
CPSC PUB #325

We recognize the importance of surfacing when it comes to playground safety. Our artificial grass surfaces for use around playground structures includes a new non-infill product. Produced with highly durable nylon yarn, AstroPlay uses a unique system which requires no infill, making it safe for infants and toddlers. Our infill products are also available for playground applications providing you with the same high level of safety in a lower cost alternative.
