**Use Zone:** 31' 4" x 31' 5"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Brady Branch Play System is a themed tree-house adventure that packs many elements under one small Club House Roof. Within this structure are two slides, a Left Turn Slide and Double Slide, that kids will ride down again and again and even race each other down. It also features a Paw Print Climber, which is an arched plastic climber with paw print imprints that are used as steps. There is also a Snake Climber that lead up to the deck that is covered with a Club House Roof. Above the deck features a Bubble Panel and traveling below the structure you will find a Stump Window Panel. The Brady Branch Play System is a great addition for preschool playgrounds. The structure stands with two 4-feet high decks. The heavy-duty 5-inch diameter posts offer the maximum performance for public use.
