Washboard abs are in your future with the Royal Double Pendulum Swing. Designed to improve abdominal, hip, and leg muscles. You place your feet in the perforated steel foothold, grab both handles and swing our legs back and forth. Add a Royal Chin Up to your space and patrons can round out their workout routine for intense results. Instructions on proper usage is detailed clearly onto the side of the station; making exercise simple and convenient. If you need some motivation, don't fret, this station can house two individuals exercising at once. You can compete with a friend or stay focused alone. The Royal Pendulum Swing is at home outside in the open. The materials that make up this station are specifically designed to withstand daily weather in a plethora of different climates and heavy use. The steel is powder-coat painted that counteracts the formation of rust. Adults and teens alike will have a chance to change their lives for the better on this outdoor, exercise machine.
