### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Pendleton Pike Play System is a fun hike to the top. The layout encourages an uphill trek to one of the three slides of varying heights. Each one gives a different experience that will cater to any child's desire. The Double Slide sits at 3-feet tall and can be ridden by two kids at once. The Wave Slide carries a rider the furthest of the three slides and is 5-feet tall. At the tip-top of this sturdy structure, the Spiral Slide resides. This gargantuan piece of rotationally molded plastic twists and turns its riders towards Earth. Those who don't enjoy slides can find other activities on the Pendleton Pike Play System. A Store Panel, Single Drum and Ship's Wheel hang off the unit and are easily reached from the ground. This system's potential is apparent at first glance.
