ADA Compliant

The Adventure Horizon Play Structure makes choosing hard with all its fun climbers and slides. On the ground, kids have multiple activities to choose from including the Ship's Wheel for exciting pretend time, the Bongos for rhythm practice and the Single Drum children to express themselves musically. On the second level, there are three different slides at the children's disposal. Two Straight Slides and one Right Turn Slide keep playtime diverse and always interesting. The Gear Panel is also on the second level ready to be played with. Both sides of the structure are connected by a Tube Bridge in the middle. This structure's inventive design allows for the second level to be accessed from every side through its multitude of climbers and ladders. These include, the Snake Climber, Wavy Vertical Ladder and the Vertical Ladder. If durability is a concern, no need to fret, this system is finished with hard rotationally molded plastics and galvanized steel posts.
