

Toddler Safety Belt Seat

MSRP \$110.00

SALE \$78.00

Highlights:

- EPDM rubber material can withstand extreme temperatures without staining skin or clothes
- Available in a variety of colors
- Single-piece insert allows for vandalism prevention

Age Group: 6 months to 5 years

The Toddler Safety Belt Seat offers comfort and support for your child with the high back. The seat is made out of a 5 3/16" thick EPDM (ethylene-propylene-diene-monomer) rubber, which prevents crazing, cracking and oxidizing, with a one-piece insert to prevent vandalism. It includes galvanized steel triangles and steel plates riveted to the seat to provide a strict hold to the chain used to hang it up. It also comes with a tab and ring to hook on the Front Chain with Snap, which you can purchase with your seat if you choose. The Toddler Safety Belt Seat comes in a variety of colors, including black, blue, green, red, yellow, and tan. The EPDM rubber makes it so these colors will not stain skin or clothes, which can happen with traditional rubber. The rubber also allows for the seat to hold up well in extreme temperatures, hot or cold.
