

Recycled Plastic Comfort Park Avenue Bench

MSRP \$498.00

SALE \$438.00

Highlights:

- Coated hardware for greater durability
- Solid black bases that support the seat
- Evenly spaced back slats for a solid feel
- Closely placed planks for a solid feeling seat

The Recycled Plastic Comfort Park Avenue Bench is a great sitting area for a street or park. The bench is made from Frog Furnishings' signature Resinwood planks that are rested upon a set of solid back bases. The Resinwood itself is an extremely durable material. Its rustproof, rot-proof, and even scratch resistant. Each plank is manufactured from recycled plastic that has been dyed and then molded into equal sized planks. The color is spread evenly through each piece allowing for each deep scratches to maintain the same color as the outside. The bench itself features a classic planked back with an unusual slat seat. The slats on the seat are set closely together to create an even and fairly level, if it is at an angle, seat. This item is available in three colors: cedar, gray and green. Custom colors are available for quantity orders.
