

Extra Wide Flat Top for Trash Receptacles

MSRP ~~\$187.00~~

SALE \$159.00

Highlights:

- Wide opening permits larger items to be thrown into can
- Only for Webcoat trash receptacles
- Complete it with a color coating to match receptacle
- Accommodates the 32 and 55-gallon Webcoat receptacle

Nothing is as distasteful to visitors passing by your outdoor area like trash sitting outside of a trash can. It looks messy, and particularly in eating areas, it's incredibly unsanitary. Now, with the Extra Wide Flat Top for Trash Receptacles, you can cover your Webcoat trash receptacles so that access is simple, trash bags stay in place, and the whole area looks neat and clean. This flat top lid will fit on any Webcoat trash can and will properly contain trash, preventing it from spilling onto the ground and making messes. This lid fits on 32 and 55-gallon trash receptacles which provides more options for how it can be used. The lid opening is extra-wide in diameter allowing most trash to fit easily into the receptacle. Finish this lid by choosing a textured polyethylene coating in any of the various color options to match your trash receptacle to create a cohesive look.
