The Tip 'N Roll Aluminum Frame Bleachers from GT Grandstands are portable bleachers that are perfect for your indoor gymnasium, school, or community center. With the Tip 'N Roll kit included, these bleachers can be put in place for the game or performance and then be rolled off back into storage immediately afterward. As the name suggests, just tip the bleachers up, and roll them off. Depending on your size choice, these bleachers can comfortably accommodate dozens of visitors, allowing them to quickly find a seat and enjoy the event. If you want that extra space and comfort, you can also get the double floorboard option on most models, allowing you to give people the room they need to settle in or move around. Whether you need the diminutive 7-Foot 6-Inch model or the impressive 27-Foot option, the Tip 'N Roll Aluminum Frame Bleachers are strong enough to handle all the foot and sitting traffic you're likely to see for years to come.
