The Low Rise Aluminum Frame Sports Bleachers from GT Grandstands are ready to meet those serious seating needs you have at your soccer field, school, local sports park, or related community area. Whether you need a few seats for an outdoor gathering, or up to 72 seats for the kids' first big game, these bleachers are ready to meet the demand. Made with tough and durable aluminum, they're ready to handle the constant use that comes with outdoor seating. Choose between a single and more spacious double floorboard depending on whether space or comfort is your top concern. While these bleachers lack the easy, towable option that some other GT Grandstand bleachers offer, they're hardy enough to remain usable and attractive right where you place them. Choose between the modest 7-foot 6-inch length and the expansive 27-foot model, with several options in between.
