Get everyone comfortable and cheering with your new Aluminum Frame Bleachers with Chain-Link Guardrails by GT Grandstands. This bleacher comes in a large number of sizes, so it can accommodate everything from a few dozen people to a crowd of up to 302. The double floorboard included in all versions of these bleachers add extra room and comfort, while the rail down the center of the aisle and the chain-link rail around the sides makes it easier and safer to access the top seats. The tough aluminum frame can stand up to the regular use most venues require. Many of the bleachers are also available with towable options, making these seats not just convenient to sit in, they're also convenient to move. With the Aluminum Frame Bleachers with Chain-Link Guardrails, you'll be able to keep every one of your fans safe, comfortably seated, and ready to watch the big event.
