The Jr Geo Dome Climber is the ideal size dome playground climber for preschool age children. Metal dome climber features 1 inch OD galvanized metal steel pipe and sits 40 inches high, a safe height for children ages 2-5. The Jr Geo Dome Climber ships unassembled with easy to read and follow assembly instructions. Add optional polyethylene connection bracket for added safety. Please note that brackets will add height and width to your unit of Geodome climber. Permanent climbers include an anchor kit that is required for commercial applications. Custom paint colors are also available.
