CPSC PUB #325

ADA Compliant

Large, activity-filled and fun, it must be the Terrace Heights Play System. This unit's layout is designed with three main clusters of activities. The first has an Overhead 90 Degree Swinging Ring Ladder jutting out of it. This horizontal ladder is fashioned with several, rings that make swinging across and back simple. Kids can take the Inclined Tube Bridge to the second hub. The Double Wave Slide, the perfect place to make friends or meet fellow competitors, flows out of it leading children back to the ground. For those that remained at the top of the structure, they will have the choice between a 6-foot Wave Slide or a slightly taller Spiral Slide. A conveniently placed Snake Climber and Vertical Ladder make getting back up to the highest point on the structure quicker. The Terrace Heights Play System will surely become a neighborhood hit.
