CPSC PUB #325

ADA Compliant

Green thumbs are welcome to the Blooming Fun Play System. The entire unit was inspired by gardens and vegetation. When children gaze upon this fantastical structure it is sure to make them crack a smile. The top of the structure is decorated with several charming toppers that will garner attention from passing pedestrians; young and old. The real fun is in its multi-leveled design. Three unique slides keep this unit diverse and enticing. The Double Wave Slide allows two kids to simultaneously race to the bottom which improves social skills and fulfills that competitive drive. The two Gear Panels, Bubble Panel and Clock Panel make an already amazing upper level just that more exciting. But the ground level is nothing to scoff at. It boasts activities such as the Car Panel, Rain Wheel, Bench Panel, Bongos, Single Drum and Ship's Wheel. This funky playground has got it all!
