Make sure children and parents of all abilities know that they are welcome and able to play on your playground with the Childforms Accessibility Sign. This sign spells out in clear language and bold letters that there is space for everyone to enjoy what your playground has to offer. Speaking of language, the sign is available in English and Spanish, so no matter the makeup of your community, you can make sure to invite everyone to play and make-believe in your playspace. The sign is made of durable materials, so you can be confident your message is reaching the people in your community rain, snow, or shine, today, tomorrow, and years from now. If you are also looking for a way to show the correct age groups to play on your equipment, Childforms also offers an Age Appropriate Sign, so all children know where they can safely and productively play.
