- Sign height adjustable depending your post
- Tough signs can remain in use all year
- Attach signs in two places for extra sturdiness
- Language helps protect children and your park

Children will play almost anywhere, whether it's safe or not. To ensure children know where they can safely and successfully play, introduce Childforms' Age Appropriate Signs to your playground. These signs spell out very clearly what age group should play on your equipment and that they should always be watched by a responsible adult. From now on, you can be sure preschoolers play on equipment designed to enhance their play experience, while the older kids remain on their own equipment. As a bonus, the sign is available in English and Spanish, so you can get your message across, regardless of your community dynamics. This is a great way to protect your playgrounds at your school, park, or church. Childforms also offers an Accessibility Sign, so children of all abilities know where they can play.
