### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Shiver me timbers! The Lightning Sailing Ship is about to set sail. Outfitted with sail toppers, plastic panels taking on the appearance of wood and a Ship's Wheel, this unit looks like it could sail away at any minute. This structure is designed to captivate children in Kindergarten all the way up to Elementary School. Imaginations will run boundlessly while peering out of portholes and hanging off the plastic bow. Commanding this hulking boat is more fun with shipmates. Friendships will blossom while braving the ocean blue together; making this system quintessential for social development. Even the slides promote cooperative play. The Double Slide and Right Turn Double Slide have an additional spot for two kids to ride at once. This transforms a simple journey to the ground into a memorable and shared experience. The Lightning Sailing Ship is ready to set off for those searching for an adventure.
