### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Tommy Truck Fun Bounce is a four-wheel adventure for young children. This bouncer mounts safely into the ground to provide a fun ride for children as they bounce up and down and back and forth. It has a realistic shape with tiny details that mimic real automobiles, making it even more immersive for children. This bouncer features realistic wheels that come in black, with grooves that make it look realistic. To add to the fun, the wheels spin as well. There is also a steel handle bar located on the top of the bouncer, giving kids a gripping space to prevent falls. The Tommy Truck Fun Bounce is roto-molded plastic and can handle all types of wear and tear. The handle is powder-coat painted which defies rusting. This fun bounce will prepare children for the great open road when they reach adulthood.
