ADA Compliant

The Game of Kings Play System is ready to be conquered by little members of royalty. This gigantic structure will keep children returning for playtime. It is designed for up to 48 kindergarteners and elementary scholars to play on concurrently. This can be a kid's way to make numerous friendships and build critical social skills. Those are not the only benefits; the four cornered design encourages running, climbing and other active play if children want to see everything. The ground level is where the fun starts. A Store Panel, Ship's Wheel and Bongos immediately greet approaching visitors with their promise of a playtime that will be deeply interactive, educational and entertaining. Kids can get to the elevated section by climbing up the Snake Climber, Pea Pod Climber, Sea Creature Climber and Ocean Climbers. The three slides top off this magnificent playground and make traveling to the ground a blast.
