**Use Zone:** 29' 2" x 37' 5"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Pumpkin Patch Play System spirals up towards the skies. This unit's coil-like design takes kids on a journey upward. Panels line the inside and outside of the structure keeping boredom away. There are two entrances to this unit. One is out in the open but the other is hidden underneath. Both convene at the start of the Straight Slide with the only way to continue being further up. The Wave Slide is the next stop and adds a little bounce to the descent. At the top, a Drum Panel and Spiral Tube Slide wait. The Spiral Tube Slide's color is able to be customized down to the individual pieces giving you the possibility of a rainbow-colored slide or just alternating colors if you prefer a more subtle look. The Pumpkin Patch Play System is peppered with panels that are accessible without having to leave the ground. A Store Panel, Double Drum, Drum Panel, Ship's Wheel, and Bongos are ripe for ground-level play. This beanstalk of activities is ready to be scaled and enjoyed.
