COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Trek through the jungle on the Sammy Safari Tree Fort Play System. This unit is overflowing with many exotic sights that would be found in the jungles of Africa or the Amazon Rainforest. Four plastic Monkey Toppers have made a home on this system along with a Flower Face Topper and two hut-like jungle-themed roofs. The motif continues across the structure by way of the Bamboo Arch Bridge that ends under the Multi Tree Topper. Children might elect to take an immediate exit on the 3-foot Wave Slide or skip down the Elephant Stairs. Others might head up the stairs to the 6-foot Straight Slide and the 76-inch Spiral Slide. For those more interested in imaginative play, there are a variety of panels littered across the system for spontaneous play. The Sammy Safari Tree Fort Play System is an exotic escape that will hold children's imaginations captive.
