Use Zone: 46' x 47' 9"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Bring a bit of spring to even the coldest of climates with the Budding Horizon Play System. Immediately the occupants are transported to a jungle or have shrunk down to a small size where wandering through the grass looks like a forest in the backyard. Each roof clearly states the tropical theme with their rounded design and the Hex Bulb Roof even looks like a grass roof off of a summer hut. The theme can become even more clear with your color choices, which uses any of our wide variety of colors including the option for clear tubes. The system stays at a fairly modest height of just 5.5-feet, giving patrons a sense of comfort as they watch their children play. Children will not be able to get enough of this play system with the Sea Creature Climber on one side and the Ocean Climber opposite. The Bones Bridge gives the appearance of a rickety bridge like that on the way to an abandoned temple in the middle of the Amazon Rainforest, but it is surprisingly rigid giving parents even more peace of mind. Whatever adventures children have on the Budding Horizon Play System, it will handle it for now and years to come.
