Unit Size: Seat 16" high, Handlebars 27" high

The MyRider Maxi Trike will provide endless fun while helping the rider develop the balance and coordination needed to ride a traditional two-wheel bike. It is designed with the same great safety features of the other trikes in this line, only the Vario Set is significantly higher for longer legs and a little more challenge. A recessed no-pinch hub design, one-piece welded crank and spokeless rubber wheels are a few of the thoughtful safety features to be appreciated. Children love this trike because the angled pedals are easy to operate and the rubber grips are comfortable to hold. The durable welded steel frame is powder-coated to resist against scratches and rust, and even the nylon bearings are long-lasting and maintenance-free. Lifetime service and a 5-year warranty are provided and the MyRider Maxi Trike ships fully assembled.
