**Specs:** Seat 15-3/4" high Handlebars 25-1/2" high

The ClassicRider 12-inch Trike will offer endless fun for children 3 to 5-years-old. The seat is just less than 16 inches high so it is ideal for this age group. Starting at the handlebars, you will notice heavy duty rubber handgrips to hold onto and then, when you look at the rubber wheels, you see that they are missing spokes. This is so fingers and shoestrings do not get caught. The pedals are even safe as there is no exposed hardware. Traveling back to the seat, kids appreciate how comfortable it is while you will love that it has a nonslip surface and a comfort back to offer support. You will also be thrilled to learn that it is made to last with self-lubricating nylon bearings and a welded, powder-coated frame. It ships fully assembled with a 5-year guarantee.
