Every child should have a Big Wheel before they are too big to enjoy one. This is a classic toy that has been adored for many decades. Of course, the SilverRider Super Cycle offers the traditional concept, only it gives it a modern style that is sure to turn heads on the playground. The frame-mounted seat offers back support, the handgrips are made from rubber and comfortable to hold, and the pedals are easy to operate, with no exposed hardware. All three rubber tires are paired up with spokeless wheels, which eliminates the risk of fingers getting pinched. It is created from a one-piece welded crank and has no pinch points with a steering limiter. This industrial strength ride comes fully assembled, with a 5-year guarantee.
