

Deluxe Tether Ball Set for Playgrounds

MSRP \$77.00

SALE \$48.00

Every playground and park should have this deluxe tetherball set by Champion Sports! It comes with everything that you need for a fun game of tetherball, including a 12-inch ground sleeve, three 42-inch poles, needles, a 6-inch inflating pump, a carry bag with an inner box, and instructions. It also features a 5-ply rubber-covered ball with an internal bladder made from nylon-wound butyl, helping it to retain air and maintain its shape through many hard-fought games. Set up one of these affordable tetherball sets to allow children to play a timeless and active game during recess on the school playground or even in the backyard at home. It's the perfect addition to any outdoor space or commercial playground!

With a brightly colored ball and simple game rules, tetherball is an appealing option for children who enjoy playing independently as well as those who prefer to play with friends. Children will delight in attempting to wrap the ball and tether around the stationary pole while they play alone, and they will enjoy the challenge of hitting the ball in clockwise and counterclockwise motions while playing with others.

A game of tetherball also presents an excellent learning opportunity, as it can help to teach children about the physics of motion. In addition to this benefit, the game also promotes physical exercise. [\[Read More\]](#)
