Whether you are a teacher, run your own day care or just do a ton of babysitting, you know how quickly rolled paper can get out of control. You also know that once pieces become wrinkled, no one wants to color on that area! The only solution is to keep these rolls organized in a way that will eliminate the potential for damage, and the easiest way to do this is with the 5-Roll Paper Rack. The arms fit up to 36-inch long rolls. The arms are spring-loaded, which makes adding new rolls a breeze and the easy-glide pegs do their job of keeping the rolls securely in place. You will also appreciate that the blade is non-serrated for safety purposes. To add to the practicality, locking casters are added for quick storage and effortless mobility. It holds five rolls of paper, comes with a one-year warranty, and requires easy assembly.
