- Plastic laminate finish makes it easy to keep clean

**Age Group:** All Ages

**Assembled Dimensions:** 36" x 19" x 63"

As classroom sizes continue to grow and space decreases, you probably have found that the cabinet that was once adequate for your supplies, no longer does the job of keeping you organized. Alternatively, you may not even have a current cabinet at all! Either way, the Value Line Teachers Cabinet is an essential. This sizeable piece weighs 81 pounds so you do not have to worry about it tipping over. Two doors open completely to four very roomy shelves that offer enough space for even tall items. With it being exposed to children on a daily basis, you will appreciate that the cabinet is stain and scratch-resistant and easy to clean. The edges are rounded and sanded smooth for safety. This unit is made here in the USA and comes with a lifetime warranty on defected materials and manufacturing. Everything you need for assembly is included; no toolbox is needed.
