The Green Polyethylene Junior Bag Dispenser by DOGIPOT is the perfect solution to your dog waste problems. If your park, apartment complex, or neighborhood has far too many dog owners who aren't cleaning up after their animals, this dispenser may just make the difference. Made of durable polyethylene, the dispenser has clear instructions to remind all naughty dog owners of their responsibilities and then two easy to access openings below, so they have no excuse not to grab a bag while on their walk. The lock on the front and massive 400-bag capacity makes your job much easier, since you'll rarely have to add bags and when you do, it's just the turn of a key to do so. Mount this anywhere dogs will be present. All mounting hardware is already included. If you'd like an even more durable dispenser, check out DOGIPOT's Green Aluminum Header Pak Junior Bag Dispenser and Green Aluminum Junior Bag Dispenser.
