Unit Size: 11-3/4" x 3' 11-3/4" x 1' 10-1/4"

Keeping things organized around toddlers can be a monumental task. You want to have toys, coloring books, etc., put away, but at the same time, you want them to learn to put things back where they belong. This means that low, practical, and safe shelving is needed, both at daycare facilities and in the home. Maple-faced melamine panels have been sanded and given rounded edges to create this Value Line Toddler-Age 2-Shelf Storage. The bottom shelf is long and open while the top shelf features a divider in the middle. Items can be placed on top as well. The last thing you want around toddlers is furniture that cannot be cleaned. Fortunately, this unit is easy to wipe down. It even resists scratches and stains! All the tools and hardware needed for assembly are provided and it comes with a lifetime warranty against material and manufacturing defects. Made in the USA.
