Sometimes, you do not have room for a 4-ft unit and other times, you just do not need one! The Value Line 3-Foot Wide 2-Shelf Storage unit offers an organizational solution without taking up a lot of space. Thick maple-faced melamine panels have been used with a wood-grained recessed back panel to create a storage unit that can hold toys, games, puzzles, coloring books or anything else you need a permanent home for. It is ideal for schools, daycares, or even a child's bedroom. This product is made in the USA so you can feel good about supporting local workers and comes with everything you need for assembly, including tools. The Value Line 3-Foot Wide 2-Shelf Storage unit can be cleaned easily and it is made to resist stains and scratches. This means it will continue to look its best for a long time.
