Highlights:

- Affordable value that can really organize your classroom
- Scratch and stain resistant against daily wear
- 1/4" thick back panel
- Simple assembly required

Unit Size: 48" x 12" x 36"

Sometimes, long shelves offer the potential to be cluttered quickly; dividers can make all the difference in the world. The Value Line 3-Shelf Storage unit will keep toys organized, allowing everything to have its proper place. The highest shelf is 3-ft long with no dividers, so it is perfect for large toys or children's books. The second shelf has three dividers, helping to keep small items separate and the bottom shelf has one divider so there is plenty of space for board games or larger toys on each side. The edges are rounded and sanded smooth for safety and the entire unit is made to resist stains and scratches. It is also easy to clean, which is a dream come true for any furniture pieces used around children. The package arrives ready to assemble, with everything you need, including hardware and tools.
