- Encourages visitors to pick up after their pets

**Unit Size:** Bags (8" wide x 1' 1" high)

One of the worst fates that befalls a waste conscious dog-owner is when your dog needs to go more times than you have bags. Unfortunately, that almost always means the park or other outdoor areas that the offending dog is in at the time, gets the bad end of the deal. The waste gets left. By setting up dog bag dispensers, your area has a better chance of staying dog waste free. If you're offering litter bags, then the Litter Pick Up Bags from DOGIPOT are worth it. Scaled to a size that makes it easy to pick up the largest of messes, yet not so big that it's difficult, these bags will be an affordable addition that keeps your outdoor venue much more clear of dog messes.

Compatible with the following Pet Stations:
