Offering a place to dispose of dog waste is a crucial part of maintaining a clean outdoor space. That's why you need the 10 Gallon Green Aluminum Waste Receptacle by DOGIPOT. This receptacle allows people to dispose of their dog waste correctly, using a bin that is not used for any other items of trash. This means that children will not be going near the dog mess when they are trying to dispose of their litter. This waste receptacle is incredibly efficient in keeping the smell contained and ensuring that you can easily dispose of the animal waste thanks to the litter pick up bags that you can offer in your dispenser. Make sure you have a waste receptacle and you can keep your playground free from dog mess throughout the year. If you want another durable waste receptacle option, consider DOGIPOT's 10 Gallon Green Galvanized Steel Waste Receptacle and the 10 Gallon Green Polyethylene Waste Receptacle.
